

**Tin Lee Electronics Ltd. is a manufacturer of custom, television and RF system products. With in-house research, custom manufacturing and an uncompromising commitment to quality, we design and manufacture exactly what you need – when you need it. And, ship to you anywhere in the world.**

**F**rom Los Alamos, New Mexico to Taipei, Taiwan, we ship custom-made, hand-crafted, Cable TV, TV/FM Broadcast reception and RF Communication system products to satisfied customers around the world.

And while over the years, technology and customer needs have changed, our commitment to manufacture quality products and our focus on customer service and satisfaction has not.

In addition, our in-house research team ensures that we are constantly improving our capabilities and re-engineering our components to offer you the finest products possible.

If you require technical assistance, we offer expertise on filter and trap, TV headend, and signal distribution applications.

*Our products are designed to provide unique and lasting solutions to your needs. At Tin Lee Electronics, custom orders are fulfilled and delivered world-wide, on time and within budget.*

For years, we've provided high-quality components and solutions to the cable television, RF communications and off-air antenna industries.

Our customers tell us that our performance expertise, quality products and quick delivery are some of the reasons for their continued business.

We're confident you will agree with them and would welcome the opportunity to assist with your next project.

If you need more information or have a product requirement that you wish to discuss — please send us an email or give us a call.
